

# Meal Tracker® Touch-Screen Point of Sale

Fast, reliable, proven POS system.  
Ideal for cafeterias with minimum space,  
desiring a high-tech solution.  
Available for single-lane or multi-lane.

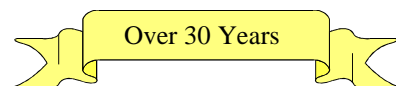

Your choice of input device!

- **NEW!** Buffered serving option allows two lines of students to enter PIN numbers; operators pick students from a left or right ordered list.
- All transactions occur in real-time. You won't lose transactions with a sudden power loss!
- Student pictures (in color) on screen, including the ability to capture a picture with digital camera or other TWAIN-compliant device.
- Bright color screens; large, finger-friendly buttons make serving fast and easy.
- 3 serving periods . . . separate totals for each period on reports.
- Name and PIN number are displayed for account purchases.
- Serve reimbursable meals, a la carte, or both on the same transaction.
- Serve by Name or PIN search.
- Automatic alerts for second-meal service, negative balance, invalid PIN number, dropped accounts.
- Split-cash option allows part of a transaction to be served by cash, with the remainder coming from a prepaid balance or by charging.
- "Amount Tendered" key computes correct change on cash purchases.
- Maximum charge limits help you keep control of debt.
- Unlimited menu item keys allow you to have an expansive selection of food items.
- Offer vs. Serve option converts qualifying a la carte purchases to reimbursable meals.
- Ability to credit accounts without leaving serving screen.
- Edit accounts without leaving serving screen
- "Delete Last" key allows you to void most recent transaction.
- Use as stand-alone, or as part of a LAN (supports popular network types).
- Easy, versatile reports.
- Windows 95, 98, NT, 2000, ME, XP
